## Hydro-Press™

**Swage .17 cal. to 25mm bullets and reload up to 20mm, draw precision jackets and extrude lead wire.** Make lead-free powder

*metal bullets. The rugged Hydro-Press is the heart of custom bullet firms and ballistic labs around the world.*

### CHP-1 press

Uses  
Type -H Dies

*Ideal for a retirement business!*

### • Swaging gives you...

- ...More time to shoot, because it is so fast.
- ...Ultra high precision (up to 100 times rounder).
- ...Amazing weight control.
- ...Adjustable weight: one die = 1000+ moulds!
- ...Power to draw high precision jackets at home.
- ...Power to make lead-free powder metal bullets.

### • Corbin will help you get started!

Check out our websites for procedures and price! Send a drawing, sample, or description of the bullet for a quote to get exactly the right tools.
